1. Welcome to QuickieFix

QuickieFix is New Zealand's on-demand marketplace for home repairs. When something breaks, you request help and we dispatch a verified tradie to you in real time — like calling a ride, but for a plumber, electrician or locksmith.

Get trusted help in minutes — verified tradies, dispatched on demand.

What it costs

Item	Who pays	How
Using QuickieFix	Nobody — it's free for customers	No booking fees, no subscriptions
Labour (hourly rate + call-out fee)	You, directly to the tradie	The rate is shown before you commit and locked in when the tradie accepts
Parts & materials	You, directly to the tradie	Extra — agreed with you on site, itemised on your job summary

That distinction matters: the price you see upfront is the **labour** rate (hourly rate plus any call-out fee). Any parts or materials the job needs are additional, and your tradie must agree them with you on site before they're used.

💡 QuickieFix is built for help **now**. There's no scheduling calendar to wrestle with — you request, we dispatch the nearest available verified pro.

2. Getting started

Create an account

1. Open the app and tap **Sign up** on the welcome screen.
2. Enter your **first name**, **last name**, **email** and a **password** (at least 6 characters).
3. Tap **Create account**. You're taken straight to your home screen.

Create account

Get trusted help in minutes.

First name Last name

Sam Taylor

Email

you@example.com

Password

At least 6 characters

Create account

Already have an account? [Log in](#)

Four fields and you're in — no payment details required.

💡 Are you a tradie? Use **Join as a tradie** instead — tradie accounts go through verification and have their own app experience.

Log in

1. Tap **Log in** on the welcome screen.
2. Enter your email and password, then tap **Log in**.

Welcome back — log in to continue.

Forgot your password?

1. On the login screen, type your **email** into the Email field first.
2. Tap **Forgot password?** below the Log in button.
3. If an account exists for that email, we send a reset link. Check your inbox — and your spam folder.

💡 Once you're logged in, you can enable fingerprint/face unlock under **Sign-in & security** in your Account tab so you never type the password again.

3. The home screen

The home screen is mission control: everything starts here.

Greeting, live tradie availability, the Request help button, trade shortcuts and your recent jobs.

From top to bottom you'll see:

Element	What it does
Greeting	"Good morning, Sam" plus <i>What do you need sorted today?</i>
Bell & avatar	The bell opens Activity (with a badge counting active jobs); the avatar opens your Account
Request in progress banner	If you have a live request, it's pinned at the top with Continue and Cancel buttons
Live supply pill	A green pill reading " N verified tradies near you now " — real availability, right now
Supply line	e.g. <i>Nearest verified pro ~12 min away · call-out from \$59</i> — anchored to your saved home address
Request help	The big amber button. When we know the nearest pro's ETA it reads Request help · ~12 min
What do you need?	A grid of trade tiles — tap one to start a request with that trade pre-selected. QuickieFix covers 12 trades (full list below)
Recent	Your last few completed or cancelled jobs — tap any to reopen its summary

The 12 QuickieFix trades

Trade		Trade	
 Electrician	 Plumber	 Gasfitter	 Builder
 Roofer	 Painter	 Locksmith	 Handyman
 Appliance Repair	 Landscaper	 Cleaner	 Pest Control

💡 Save your home address in **Account** — the live supply pill and ETA on the home screen are anchored to it, so the numbers you see reflect your actual street, not a city-wide average.

4. Requesting help

Tap **Request help** (or a trade tile) and the app walks you through four quick steps: **Service** → **Details** → **Location** → **Review**. A progress bar at the top shows where you are, and the back chevron always takes you one step back.

Step 1 — Pick a trade

Choose one of the 12 trades. If you started from a trade tile on the home screen, this step is already done and you land straight on Details.

Step 2 — Describe the issue

Step 2 of 4 - Details

Describe the issue

The more detail, the faster the right tradie can help.

Leaking tap under the kitchen sink

Add photos of the problem (optional, up to 4)

Camera Gallery

Continue

A clear description and a photo or two get you the right tradie faster.

1. Type what's wrong — e.g. "My hot water cylinder is leaking in the garage." At least a short sentence is required (5 characters minimum), but the more detail, the faster the right tradie can help.
2. Optionally add **up to 4 photos** using 📷 **Camera** or 🖼️ **Gallery**. Tap the X on a thumbnail to remove it.

💡 A picture of the problem beats a paragraph. Tradies use your photos to bring the right gear on the first visit.

Step 3 — Where's the job?

Step 3 of 4 - Location

Where's the job?

Use my managed property

30 Davey Crescent
Managed by Harbour Property Management - their approved tradies handle it

or a different location

Use my current location

or enter manually

Address

12 Queen Street, Auckland

Enter the job address

Saved properties, your current location, or a typed address — your choice.

You have three ways to set the location:

- **A saved property** — if you own or rent a property linked to your account it appears at the top. Managed (agency) properties are listed first with a 🏠 icon. One tap fills the address.
- **Use my current location** — tap 📍 and the app pins where you're standing.
- **Type the address** — start typing and pick from the suggestions. Suggestions are **New Zealand addresses only**.

When the address is pinned to exact coordinates you'll see ✓ **Location pinned — tradies see exact distance**.

Step 4 — Review and go

Live proof before you commit: who's available, how far, and the from-price.

Before you submit, the app shows a **live availability preview** for your trade at your address:

- **N verified pros available now**
- **Nearest arrives in ~X min** (when your location is pinned)
- **Call-out from / Hourly from \$Y** — the cheapest labour rate among available pros
- The nearest pro's business name, star rating, completed-job count and licence tick

Under the preview: *Labour rates lock in upfront — any parts are agreed with you on site.*

How do you want to match?

Option	What happens
Auto-assign	We alert nearby pros and the first to accept takes the job. Fastest.
Browse & choose	You see the available pros — compare rate, rating and distance — and pick your own.

This is an emergency — tick this for a gas leak, no power, flooding or a lockout. Emergency jobs jump the search queue and are **always auto-assigned for speed** (Browse & choose is disabled).

⚠ QuickieFix is not an emergency service. If there's a fire, a smell of gas, risk of electrocution, or **any danger to life — call 111 first**. When you tick the emergency box, the app shows a **Call 111 now** button for exactly this reason.

Tap **Find me a tradie** (or **Browse tradies**) and you're off.

💡 Changed your mind mid-request? Backing out of a partly-filled request asks you to confirm before discarding, so a stray tap won't lose your photos and description.

5. Renting a managed property

If you rent through a property management agency, QuickieFix can route repairs at your place through your property manager — often at **no cost to you**.

Link your property manager

1. Get your **agent code** from your property manager's invite (it looks like `QF-AG-7K2P`).
2. Go to **Account** → 🏠 **Property manager**, enter the code and tap **Link my property manager**.
3. The agency is asked to confirm you as their tenant — your link shows ⏳ **Pending**, then ✓ **Confirmed** once approved.
4. When the agency adds you to your property, it appears under 🏠 **Properties** in your Account and at the top of the location step whenever you request help.

💡 Confirmed but your address hasn't appeared? The app tells you: ask your property manager to add you to your property so repairs there are one tap away.

Requesting help at a managed property

Pick your managed property in the location step, and at the Review step you'll be asked **Who's paying for this job?**

At a managed property, you choose who pays — the agency (default) or yourself.

Choice	What it means
 My property manager pays (default)	The request goes only to the agency's approved tradies . Costs are covered by their agreement — you see no rates and pay nothing. The billing contact is locked to the agency (shown read-only with a  — it can't be changed).
 I'll pay myself	A normal open-market job: choose from all available tradies, labour rates shown upfront, and you pay the tradie directly.

When the agency pays, the review screen shows how many of their approved tradies are available right now. If none are online, your request still goes out — they're notified the moment they're back.

6. While we find your tradie

After you submit an auto-assigned request, you land on the searching screen.

We alert the closest verified pros and widen the search until one accepts.

- The screen shows **Finding you a tradie** (or 🚨 **Finding you help now** for emergencies) with a live progress spinner.
- Behind the scenes we alert the closest verified pros first, then widen the search in waves until one accepts — **usually within a few minutes**.
- If you chose **Browse & choose**, this screen instead lists the available pros with their rate, rating and distance so you can pick. Busy tradies are asked too and appear if they say yes.
- A tradie may **ask you a question** before accepting — it appears at the top of the screen. Quick replies help you get the right tradie faster.
- You can tap **Cancel job** at any time while searching — no charge, no penalty.

If no tradie is found

Occasionally nobody is free. The screen tells you honestly which case you're in:

- **No tradies available** — nobody in your area covers this right now. Try again shortly.
- **No tradie free right now** — pros exist but none could take it. **Our team has been alerted** and will try to line someone up; you can also tap **Try again** to resubmit immediately.

7. Your tradie is on the way

Once a tradie takes your job, the tracking screen walks you through every stage.

Confirmed

Confirmed — your tradie's labour rates are locked in and shown upfront.

-  **Confirmed · [Business] is getting ready to head over.**
- A  **Rates** card shows the labour rates that were **locked in at acceptance**: hourly rate, call-out fee, and after-hours call-out where applicable. *The tradie invoices you directly at these rates* — this card is your price record.
- The tradie's full profile card: business name, rating, completed jobs and qualifications.

Travelling

Watch your tradie's live position move toward you on the map.

- 🚚 **[Business] is on the way** with live distance and ETA: 📍 *Live · 4.2 km away · arriving in about 9 min.*
- The map shows your job location, with the tradie's **live phone position** as a moving amber marker.

On site

When the tradie arrives you'll see 🛠️ **Your tradie is on site and working on the job.**

Throughout, the screen also shows a **Progress** timeline, your original request (description, address and photos), and a **Cancel job** button — available up until the tradie is on site. Cancelling notifies the tradie.

💡 The 💬 icon in the header opens Messages at any stage — see the next section.

8. Messages

Every job has its own message thread with your tradie — tap the 💬 icon on the tracking screen.

Chat with your tradie in-app — with the job details and photos right there for context.

- The thread shows **the job** (your description and photos) at the top, so the conversation always has context.
- **Contact details are masked for safety.** Phone numbers, email addresses and social handles are automatically redacted from messages when sent — all communication stays on the platform, where it's tied to your job record.
- 🛠️ **Messages and photos are deleted automatically when the job closes.** Once a job is completed or cancelled, the thread is wiped by the server. If you need something kept, act on it before the job ends.

⚠️ Never arrange payment through chat or move the conversation off-platform. Your upfront rates, completion code and complaint process only protect jobs that stay on QuickieFix.

9. Job complete

When your tradie marks the job done, the tracking screen turns celebratory.

Job complete
Bright Spark Electrical finished after 15 min on site.

Rate Bright Spark Electrical
30 seconds — it keeps quality high for everyone.

☆☆☆☆☆

Professional Friendly On time

Excellent workmanship

Would recommend

Add a comment (optional)

Submit rating

Parts & materials used
HPM double power point \$18.50

Parts total \$18.50
Agreed on site - billed by the tradie, in addition to labour.

Job complete — with time on site, parts itemised and your confirmation code.

Rate your tradie — 30 seconds

Right under the green **Job complete** hero is the rating form. Pick a star rating and tap any tags that fit — *Professional, Friendly, On time, Excellent workmanship, Would recommend* — then submit. It takes 30 seconds and keeps quality high for everyone.

Thanks for your rating!
You rated 5/5.

Parts & materials used
HPM double power point \$18.50

Parts total \$18.50
Agreed on site - billed by the tradie, in addition to labour.

Job summary
Completion confirmation code
QF-WA8TGX
Emailed to you as your completion record — quote it on any invoice query.

Total time 27 min
Time on site 15 min

Bright Spark Electrical
Electrician · 3 yrs experience
★★★★ 4.4 (20)

Thanks for your rating — it's how the best tradies rise to the top.

Parts & materials used

If the job used parts, they're itemised with quantities, per-item prices and a **Parts total**. Remember: parts are *agreed on site · billed by the tradie, in addition to labour* — nothing should appear here that wasn't discussed with you.

Job summary and completion code

The summary card shows **Total time** and **Time on site**, plus your **Completion confirmation code** — a short code that is **emailed to you as your completion record**. **Quote it on any invoice query** with the tradie or with QuickieFix support.

Something wrong?

Tap **Report a problem** at the bottom, enter a subject (e.g. "*Tradie didn't finish the job*") and any detail, and submit. Our team reviews every complaint and will be in touch.

10. Activity

The **Activity** tab is your full job history — every job you've ever requested, newest first, each with its trade, address and current status (searching, confirmed, travelling, on site, completed, cancelled).

Every job, every status — tap any card to reopen its tracking screen or summary.

Tap any job card to reopen it: active jobs open live tracking; finished jobs open the summary with rates, parts, times and your completion code.

💡 The bell icon on the home screen is a shortcut straight here, with a badge showing how many jobs are currently active.

11. Your account

The **Account** tab holds your profile, addresses, properties and support tools.

Profile, saved addresses, properties, property manager link, support and security.

Saved addresses

Save a **home** and **work** address. Tap **Set** (or **Edit**) next to either, start typing, pick from the NZ address suggestions and save. Your home address powers the live availability and ETA on the home screen; both addresses speed up the location step. Clearing the field and saving removes an address.

Properties (landlords)

Own a rental? Tap + **Add** in the 🏠 Properties card, give it an optional label (e.g. *Unit 4, Takapuna*) and the address, and tap **Add property**. Then, for each property:

- **Link tenants** by entering the email they use on QuickieFix, so they can request repairs at your property in one tap. Unlink anyone at any time.

- As the property owner you become the **payer of record** for jobs at that property, and you get **visibility plus an emailed record of every job** done there. Recent jobs at your properties are listed right in the card.
- **Remove property** takes it off your account and unlinks its tenants — past jobs and their records are unaffected.

Property manager (tenants)

The  Property manager card is where you link an agency with your agent code — see section 5 for the full flow and what it unlocks.

Help & support

Tap **Contact QuickieFix** in the  Help & support card, enter a subject and message, and send. Your ticket goes straight to the QuickieFix team's back office and ops inbox — we reply in-app or by email.

Sign-in & security

Enable biometric unlock (fingerprint/face) so you can open the app without typing your password.

Delete my account

At the bottom of the tab, **Delete my account** permanently removes your profile, addresses and sign-in.

 Deletion is **permanent and cannot be undone**. Completed-job records are kept in **de-identified form** (no longer linked to you) as required by billing law. Log out first if you just want to switch accounts.

12. Pricing & FAQ

How much does QuickieFix cost me? Nothing. QuickieFix is completely free for customers — no booking fees, no subscriptions. You pay the tradie directly for the work.

What exactly am I paying the tradie? Labour, at the rates shown upfront: an **hourly rate** plus any **call-out fee** (a higher after-hours call-out may apply outside normal hours). These rates are visible before you commit and locked in when the tradie accepts — they appear on your Confirmed screen and in your job summary.

What about parts and materials? Parts are **extra** and must be **agreed with you on site** before they're used. They're itemised, with a total, on your completed-job screen, and billed by the tradie in addition to labour.

How are tradies verified? Every tradie on QuickieFix is verified before they can take jobs. For regulated trades (electricians, plumbers, gasfitters, builders) that includes checking the required licences and qualifications — you'll see a **✓ Licensed** tick and their rating, completed-job count and qualifications on their profile card.

Can I pick my own tradie? Yes — choose **Browse & choose** at the review step to compare available pros by rate, rating and distance. Emergencies are always auto-assigned for speed.

Can I cancel? Yes, free of charge, any time while we're searching — and up until the tradie is on site (they'll be notified).

What if I have a problem after the job? Use **Report a problem** on the completed-job screen, and quote your **completion confirmation code** (emailed to you) on any invoice query. For anything else, raise a ticket via **Help & support** in your Account.

Where is QuickieFix available? We're launching on Auckland's **North Shore** first, with more of New Zealand to follow. The live supply pill on your home screen always tells you exactly how many verified tradies are near you right now.

💡 The fastest way to a great result: clear description, a couple of photos, a pinned address — and 30 seconds to rate your tradie when it's done.
